DETAILED ACTION

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-5 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The claims are directed to a method or process for deriving a transform matrix according to a mathematical algorithm, i.e. the claims are to a process that performs a purely mathematical algorithm. The claims are non-statutory because the claimed process is not limited to a practical application of the mathematical algorithm in the technological arts, note MPEP 2106 (IV) (B) (2) (b) (ii).

Claim Rejections - 35 USC § 112

2. Claims 3, 4, 7 and 8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 3 and 4 are inconsistent with claim 1, i.e. claims 3 and 4 fail to fall within the scope of claim 1 because claim 1 is limited to deriving a transform matrix whereas claims 3 and 4 use transform matrices to process image data. Claims 7 and 8 call for an image block to have n pixels and m rows but the image block has n columns and m rows and nxm pixels.

Allowable Subject Matter

3. Claims 6 and 9-12 are allowed.
4. Claims 7 and 8 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Specification

5. Pages 2 and 7, third to last line; "pixels" should be "columns". In the "E" equations on pages 3-5 the number above the sigma sign should be reduced by 1.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David H. Malzahn whose telephone number is (703) 305-9762. The examiner can normally be reached on M-Th from 7:30 to 6:00.
